EXPERIENCE

Covance Inc.   San Diego, CA
Program Specialist (contracted through Corestaff)   October 2017-April 2018

Provided case management services for patients and their providers for multiple Covance programs. Quickly responded to incoming calls and faxes, determined program eligibility, placed follow up calls for missing information, identified and owned issues, navigated insurance programs, and worked to remove obstacles

preventing patients or providers from accessing treatment. Recognized for near perfect metrics multiple times, and moved through training stages at an accelerated pace in recognition of performance. Assisted in the training of new team members and created scripts, references, and resources to ease the learning curve of starting a new program. Educated patients on insurance options and the marketplace and assisted in navigating the insurance approval process and Prior Authorizations as well as potentially finding alternative funding when needed.

GreatCall, Inc.   Carlsbad, CA
Customer Service Agent   March 2016-February 2017

Customer Service Agent for GreatCall, a cell phone and safety device provider. Handled a multitude of incoming calls from customers each day, regarding issues ranging from emergencies, to disconnects, troubleshooting, billing questions, rate plan changes, retentions, and more. Handled a high volume of calls every day with the goal of one call resolution for every customer's problem. Also responsible for meeting adherence, revenue, and retention goals and recognized for the highest retention numbers of the team. Created multiple new policies regarding exchanges and returns adopted by corporate and used to significantly increase retention rates company-wide.

Reuters/Ipsos   Encinitas, CA
State Director   September 2014-November 2014
National Field Team

Brought on as State Director (SD) of Montana and a member of the National Field Team (NFT) for the Reuters/Ipsos Election Reporting Project (RIERP) in recognition of excellent work during the ESI contract. As SD, prepared for Election night by finalizing the new contact network of election officials building upon previous data. Successfully led a team of 5 Regional Coordinators (RC) and 56 EAs, ensuring proper coverage of all 56 counties and verified all results were reported, later being recognized as one of only a few states to achieve 100% reporting. For the NFT, worked to assist other SDs in their preparation by calling to areas where the Election Agent (EA) had received pushback about RIERP reporting local results. Managed conference calls to answer questions and provide technical assistance to EAs, RCs, and other SDs from across the country.

Election Systems Inc.   Carlsbad, CA
Data Coordinator/IT Technician   June 2013-September 2014

Initially worked on the RIERP, made calls and reached out to local election officials across the country, building a contact network from the ground up for the 2014 Election. Other projects included qualifying multiple petitions for the ballot - processed and validated petitions for errors, duplicates, fraud, etc. Primarily built spreadsheets to track the results of processing, consolidated information, coordinated with subcontractors for receiving and follow up, communicated the results and discussed any issues. Promoted and put in charge of in-house IT work, computer and network set up, troubleshooting, and minor server tasks using MySQL.

The Home Depot   Encinitas, CA
Head Cashier   December 2008 –March 2013

Promoted in less than 6 months and recognized multiple times for excellent customer service. Assisted in training and supervision of cashiers, teaching proper procedures and Code of Conduct, as well as ensuring monthly training was completed on time and identifying areas for improvement and providing coaching or retraining where needed.

TRAINING and EDUCATION
